CERTIFIED ENVIRONMENTAL MANAGEMENT SYSTEM MANAGER™

CEMS™

**Fully Accredited
By:**

Chartered Institute of
Professional Certifications

CPD
Certification Service

PROGRAM OVERVIEW

Recent studies by the United Nations reveal that companies which prioritize Environmental Management Systems (EMS) are **more likely to achieve their sustainability goals, see an average 6% improvement in operational efficiency and enhance their public image.** In addition, those that adhere to international standards like ISO 14001:2015 report **improved stakeholder trust and regulatory compliance.**

This Certified Environmental Management System Manager (CEMS™) & ISO 14001:2015 Certification Path program will empower you to **establish a resilient EMS in accordance with ISO 14001:2015.** You will gain unique insights into global sustainability policies, the critical environmental risks they address, and the vital role EMS plays in mitigating these risks and driving environmental improvement. You will learn the art of drafting a succinct environmental policy tailored to your organization, coupled with essential change management skills to ensure successful policy implementation.

Throughout the program, participants will also undertake a thorough analysis of ISO 14001:2015 requirements, its clauses, and core components. You will gain proficiency in assessing environmental risks and opportunities, developing strategies for continual improvement, and setting into motion effective operational controls. Moreover, you will learn about **establishing comprehensive EMS documentation and record-keeping protocols crucial for audit preparedness.**

PROGRAM OVERVIEW

A distinctive feature of this program is its focus on **guiding organizations through the ISO 14001:2015 certification process**. Participants will become proficient in **conducting internal audits, planning, executing, reporting and following up on audit results, and preparing for certification audits**. This ensures an encompassing command of EMS, which is instrumental for environmental sustainability and regulatory compliance.

Upon completing the program, participants will attain the **Certified Environmental Management System Manager (CEMS™)** designation. As a CEMS™ certificate holder, participants will possess the skills and knowledge essential for implementing and managing an effective EMS. The CEMS™ designation also signifies a commitment to environmental sustainability and enhances one’s credibility and stature in the field of environmental management, which is invaluable in career advancement and organizational success.

Globally demanded and recognized, this designation is an industry-recognized trademarked charter developed by the Chartered Institute of Professional Certifications and has lifelong validity. It is also fully accredited by CPD as adhering to the highest standards of Continuing Professional Development. We look forward to welcoming you to this program.
