UK WORKPLACE HEALTH SAFETY REGULATIONS AND COMPLIANCE

Fully Accredited By:

Chartered Institute of Professional Certifications

CPD Certification Service

PROGRAM OVERVIEW

UK workplace health and safety regulations save countless lives, with HSE data showing a 95% reduction in fatal injuries since 1974. While these laws aim to reduce such numbers, their complexity—**covering 200+ regulations like PUWER and COSHH—makes compliance challenging**, requiring businesses to adapt continuously to evolving standards and industry-specific requirements to ensure employee safety.

This certified program will equip you with a comprehensive understanding of the UK's workplace health and safety laws, focusing on **critical directives such as Health and Safety at Work Act, MHAWA 99, PUWER, LOLER, COSHH, RIDDOR**, and more. You will explore key regulations governing equipment, hazardous substances, and workplace injuries, while also gaining insight into the UK court systems and key legal terminology such as vicarious liability, contributory negligence, and duty of care. You will develop a thorough understanding of critical aspects of **health and safety compliance, encompassing workplace regulations, the importance of Personal Protective Equipment (PPE), best practices for ensuring safety, and established protocols for emergency response**.

Furthermore, you will gain hands-on experience in performing **safety audits, measuring performance, and preparing for inspections**. Additionally, the program covers crucial topics such as employee engagement in **health and safety processes, how to effectively communicate safety policies, and ensuring compliance with international standards like ISO 45001 and environmental considerations under ISO 14001**.

PROGRAM OVERVIEW

Beyond compliance, this program will teach you how to integrate continuous improvement strategies, **applying the Plan-Do-Check-Act cycle to ensure that your health and safety practices are constantly evolving**. You will also explore future trends in workplace safety and learn how to apply cost-benefit analysis in the selection of control measures, ensuring both financial viability and safety excellence.

Upon successful completion of the program, you will attain the **Certification in UK Workplace Health & Safety Laws**, affirming your ability to manage workplace safety proactively, comply with legal standards, and enhance your organization's safety culture. This industry-recognized certification will not only advance your professional credentials but also demonstrate your commitment to maintaining high standards in workplace health and safety, ensuring career growth and leadership in the field.

PROGRAM AGENDA

MODULE 1 - UK LEGAL FRAMEWORK AND KEY LEGISLATIONS

- UK Court System Criminal and Civil Common Statute Law
- Key Terminologies - ALARP, SFARP & Duty of Care Fundamentals
- Key Legislation: Status and Legal Framework

MODULE 2 - APPLICATION AND USE OF KEY LEGISLATION

- Management of Health and Safety at Work Regulations
- Managing Hazardous Substances: COSHH Regulations
- Electricity and Asbestos at Work Regulations: HSE and Industry Guidance Explained

MODULE 3 - RISK ASSESSMENT AND ANALYSIS

- Selecting the Right Type of Risk Assessment
- Hazard Identification and Human Factors Consideration
- Hazard Identification: Human Factors and Control Measures

MODULE 4 - HEALTH AND SAFETY POLICIES AND PROCEDURES

- Understanding the SMS Plan-Do-Check-Act Cycle
- Understanding ISO 45001 and Its Relationship to OHSAS 18001
- Understanding ISO 14001 Environmental Policy

MODULE 5 - HEALTH AND SAFETY POLICY

- Understanding Policy Structure and Legal Requirements
- Formulating and Implementing Effective Policies
- Effective Policy Utilization and Communication Strategies

MODULE 6 - SAFETY INSPECTIONS

- Types of Inspection
- Maximizing the Effectiveness of Safety Observation Systems
- Engaging the Workforce: Evaluating Work Conditions and Ergonomics

PROGRAM AGENDA

MODULE 7 - AUDITS AND PERFORMANCE MEASUREMENT

- Understanding the Purpose of Internal and External Audits
- Audit Preparation
- Types of Consultation and Communication Methods

MODULE 8 - TRAINING, COMPETENCY MANAGEMENT AND RECORD-KEEPING

- Applying Legal Requirements for Employee and Safety Rep Training
- Competency Application
- Record Keeping

MODULE 9 - WORKPLACE SAFETY ENGAGEMENT AND REPRESENTATION

- Analyzing Causal Factors: Bowtie Model, Root Cause, and Event Tree Analysis
- Purposeful Meetings and Effective Communication
- Enhancing Workforce Engagement in Safe Systems of Work

MODULE 10 - CONTINUAL IMPROVEMENT AND EVOLVING H&S BEST PRACTICES

- Applying the Plan-Do-Check-Act Cycle for Future Planning
- Using the Hierarchy of Control to Select Effective Control Measures
- Negotiation Strategy
