EU REACH REGULATIONS AND COMPLIANCE

**Fully Accredited
By:**

Chartered Institute of
Professional Certifications

CPD
Certification Service

PROGRAM OVERVIEW

The REACH regulations in EU are among the most complex and comprehensive chemical regulatory frameworks in the world. **They cover over 23,000 chemicals, with more than 21,000 registration dossiers submitted annually**, requiring businesses to manage the risks from chemicals and provide safety information on substances, making compliance both a technical and administrative challenge. Additionally, as **REACH covers both substances manufactured in and imported into the EU, it affects supply chains globally**, with strict requirements on data sharing, substance registration, and risk management.

This certified program is designed to provide you with a deep and practical understanding of the EU REACH regulations and the skills to ensure compliance effectively. Throughout this program, you will gain comprehensive knowledge on key areas such as the **registration process for chemical substances, the evaluation and authorization of substances of very high concern (SVHCs), and the restrictions framework under REACH**. Participants will also delve into strategies for **supply chain communication and data management** to maintain compliance with safety data sheets and substance volume tracking.

Additionally, this program will enhance your ability to manage the intricacies of REACH compliance within your organizational framework, including **adapting to regulatory changes and managing the responsibilities across different stakeholders in the supply chain**. You will learn about the latest methodologies for **chemical risk assessment and management, ensuring safer use of chemical substances throughout their lifecycle**.

ACCREDITATIONS

4.6

PROGRAM OVERVIEW

Through real world case studies and practical examples, this program will equip you with the tools to **design and implement effective compliance strategies, perform internal audits, and prepare for official inspections**. You will also gain insights into the impact of REACH on product development and market access in the EU, helping you to integrate regulatory considerations into business planning and innovation.

Upon successful completion, you will attain the **Certification in EU REACH Regulations and Compliance**. This prestigious certification will enhance your professional qualifications, showcasing your expertise and the skills required to meet the registration obligations under the REACH Regulation, while effectively managing its potential impact on your business. Globally recognized, this certification will solidify your credentials and position you as an expert in one of the most crucial regulatory frameworks in today's chemical industry.

KEY SKILLS YOU WILL GAIN

From This Program

**SUBSTANCE EVALUATION
CHEMICAL COMPLIANCE CHECKS
DOSSIER PREPARATION
CHEMICAL REGISTRATION**

**ECHA PROCESSES
RISK MANAGEMENT
DATA SHARING PROTOCOLS
REGULATORY AUDITS**

**NON-COMPLIANCE PENALTIES
SIEF COORDINATION
REGULATORY DOCUMENTATION
REACH LEGAL OBLIGATIONS**

**PRODUCT STEWARDSHIP
REACH REGULATORY COMPLIANCE
CHEMICAL SAFETY
RISK ASSESSMENT
DATA SUBMISSION**

**HAZARD CLASSIFICATION
SAFETY REPORTING**

YOUR FACULTY DIRECTOR

Dr. Neil Hunt

Renowned EU REACH Expert and Author

Dr. Neil Hunt is a distinguished **expert in REACH regulations, specializing in exposure and risk assessment, authorization, and nanomaterials compliance**. At Yordas, he manages the hazard communication team and leads services in workplace and environmental exposure assessments. With over eight years of experience as a technical and regulatory specialist, Dr. Hunt has **supported numerous EU-funded projects and represented clients at CARACAL meetings during substance evaluations**.

He holds a PhD in Organometallic Chemistry from the University of Bristol and an MSc in Environmental Management. Dr. Hunt also **serves on ECHA's Partner Expert Group, contributing to nanomaterial registration guidance**. He is a recognized speaker at international conferences and advises key clients on global regulations, including **Biocidal Product Regulation, K-REACH, TSCA, and the Stockholm Convention**. Prior to Yordas, he worked as a process development chemist, leading API production for clinical trials.

PROGRAM AGENDA

MODULE 1 - REACH INTRODUCTION

- Overview of the main features of REACH and general background information
- Brief introduction to the main protocols: Registration, Evaluation, Authorisation and Restriction
- Definitions and exemptions from Registration

MODULE 2 - REACH REGISTRATION PROCESS

- REACH Registration Overview
- Types of Registration and key differences
- Lead Registration process in detail

MODULE 3 - LEAD REGISTRATION: DATA MANAGEMENT

- Data gap assessment
- Integrated testing strategies
- Use of alternative endpoint fulfillment methods
- Data costs

MODULE 4 - LEAD REGISTRATION: DATA SHARING

- Substance Information Exchange Forums after REACH 2018
- Data sharing objectives and obligations
- Data sharing disputes

MODULE 5 - LEAD REGISTRATION: ENSURING ONGOING COMPLIANCE

- Obsolescence / continuity of supply
- Due diligence
- Enforcement
- Reporting / record keeping

MODULE 6 - UK REACH

- 2024 and beyond

MODULE 7 - REACH FOR DOWNSTREAM USERS: ROLES AND RESPONSIBILITIES IN THE SUPPLY CHAIN

- Roles in the supply chain
- Main obligations for downstream users
- Substances of Very High Concern
- Supply chain compliance and communication
- Safety Data Sheet (SDS) and exposure scenarios

PROGRAM AGENDA

MODULE 8 - REACH FOR DOWNSTREAM USERS: ENSURING COMPLIANCE

- Reporting / record keeping
- Policy / management system
- Due diligence
- REACH and CLP enforcement

MODULE 9 - REACH FOR DOWNSTREAM USERS: BUSINESS IMPACT MANAGEMENT

- Obsolescence / continuity of supply
- Sustainable vs regrettable substitution
- Horizon scanning
- Product stewardship

MODULE 10 - CSR AND EXPOSURE SCENARIOS: INTRODUCTION TO RISK ASSESSMENT

- General introduction to risk assessment and how it can be applied to the use of substances
- Introduction to hazard assessment in REACH
- Defining the life-cycle of a substance using exposure scenarios - How the life cycle of a substance is described under REACH using exposure scenarios and contributing scenarios

MODULE 11 - WRITING A CSR: EXPOSURE AND RISK ASSESSMENT

- Approaches to estimate and measure exposure - Introduction to in silico tools and how measured data can be generated
- Risk Management - How risk from exposure to a substance can be calculated and a conclusion reached whether risk is acceptable or not. Which risk management measures are available to a registrant or downstream user to reduce risk?

MODULE 12 - OBLIGATIONS ARISING THROUGH THE SUPPLY CHAIN WHEN

- Exposure Scenarios Are Included in the CSR Obligations of the exposure scenario author
 - Formats of extended safety data sheets
 - What is required and when
- Obligations of the extended safety data sheet recipient
 - Are all your uses covered and what to do if they are not?
 - Proving compliance with exposure scenarios, including measurement and scaling
 - Communication down the supply chain. This includes overview of how to choose relevant information for mixtures.
- Conclusions and final remarks

YOUR CHARTER DESIGNATION

Chartered Institute of Professional Certifications' programs are unique as they provide you with professional charter designations and marks that can be used across your lifetime once you have completed our programs.

Upon successfully attending this program, you will be awarded with the **Certification in EU REACH Regulations and Compliance** that can be used in your resume, CV and other professional credentials. This certification is industry-recognized with lifelong validity.

Globally demanded and recognized, this certification will amplify your professional qualifications and demonstrate your expertise in navigating the intricacies involved in EU REACH regulations and it's compliance requirements. Developed by **Chartered Institute of Professional Certifications**, the content of this program has been independently accredited by **CPD Certification Service** as adhering to the highest standards of continuing professional principles.

Chartered Institute of Professional Certifications

All of Chartered Institute of Professional Certifications programs are fully accredited programs. The professional charters and designations are trademarked credentials that can only be used by professionals who have completed and passed our accredited program. It is also independently accredited by CPD as adhering to the highest standards of continuing professional principles.
