Dear {Manager},

I would like to enroll in the Canada Environmental Law, Permitting Regulations and Multi-Jurisdictional Compliance program to further strengthen my expertise in environmental governance, permitting systems, climate compliance, and multi-jurisdictional regulatory obligations, and I would like to seek your approval to attend this program. By attending this program, I will strengthen my ability to navigate Canada's increasingly complex environmental regulatory landscape, support stronger compliance outcomes, and contribute more effectively to our organisation's environmental risk management and sustainability objectives.

Led by Jason MacLean, a highly respected environmental law expert and climate litigation specialist, this program will strengthen my practical understanding of CEPA 2023 reforms, the Impact Assessment Act, provincial environmental assessment systems, and key sectoral regulations governing major projects and industrial operations across Canada. The skills gained from this program will help me improve permitting strategies, strengthen climate and ESG preparedness, and better manage environmental compliance and enforcement risks within our organisation. Some of the key skills this program will bring include:

- Canada Environmental Law and Regulatory Frameworks
- Impact Assessment and Environmental Permitting Strategies
- CEPA 2023 and Climate Compliance Requirements
- Carbon Pricing, Carbon Markets, and GHG Reporting Systems
- Indigenous Consultation and UNDRIP Compliance
- Environmental Governance and ESG Preparedness
- Climate Disclosure and Regulatory Reporting Obligations
- Environmental Enforcement Risk and Litigation Management

I believe these skillsets will be highly valuable to me, and you can be assured that after attending this online program, it will strengthen my ability to support stronger environmental governance, improve regulatory preparedness, and manage compliance risks more effectively. I strongly believe these capabilities will also enhance our team's performance, regulatory confidence, and organisational credibility.

I look forward to gaining your approval to attend this virtual training program.

Sincerely,
Your Name
