Dear {Manager},

I would like to enroll the Certified Network Security Manager (CNSM™) Program to further enhance my knowledge in managing network security and I would like to gain your approval to attend this program. By attending this program, it will strengthen my overall knowledge in improving our organization's cyber security architecture by deploying network security techniques to identify and remediate any potential exploitable cyber threat.

Led by Curtis Weller, a highly experienced network security consultant and trainer, this program will also help me to develop my security networking skills by grasping the techniques and tools such as Password authentication, Cryptography and Social Engineering that will help our organization to identify and prevent any potential security breaches. The program will cover practical best practices and theories that will improve my knowledge in reviewing our security vulnerabilities and develop effective solutions to countermeasure different types of cyber threats. Some of the key skills this program will bring include:

- Information Security
- Internet infrastructure
- Network infrastructure
- Standard defense
- Routing Security
- Cyber security
- Cryptography
- Social Engineering
- Countermeasures of Malware Threats

I believe these skillsets will prove to me invaluable to me and you can be assured that after attending this virtual program, I will be able to contribute even further to our organization's cybersecurity framework particularly in being first to identify potential cyber threats through network security techniques. I strongly believe that the key skills that I will gain from this program will also significantly enhance our performance and team credibility.

I look forward to gaining your approval to attend this online program.

Sincerely,
Your Name
